

MODEL CDI-JJ250

Product characteristics at a glance

Application: Can be used indoors and outdoors with dry installation technology Surprising water features, dynamic parabola possible Precise, crystal clear water jets Jet diameter 12mm

Features: Integrated illumination effects with strong RGB-LED light Extremely stable with or without floor anchoring Fast and easy installation Compact stainless steel design.

CDI JUMPING JET

MODEL CDI-JJ250

Size	370 Ht.Ø250
Light type Rated voltage mechanic and illumination	LED RGB 12V / DC
Total consumption	15 W
Water Jet DIA (in mm)	12
Max. water parabola laminar	8m with Ht 2.4m
Max. pressure	0.6 bar
Max. water depth (wet installation)	250 mm
Min. height from water level (dry installation)	100 mm
Vertical pivoting range	45 - 90°
Pressure side connection	Hose connection 1"
Outflow side connection	Hose connection 2"
DCC / DMX option	Available
Number of channels	8
Material	SS-304
Weight	22Kg
